Experiome Biotech Private Limited is a life science education, research and training organization intrinsically motivated to produce highly competent human capital, and deliver customized solutions to the biotechnology and bioscience fraternity. The company imparts project-based tailor-made trainings to the biotechnology, microbiology, biochemistry, bioinformatics, pharmacy, life science diploma, undergraduate, and postgraduate students, and PhD scholars. The company provides customized contract research services in diverse areas of life sciences, based on the needs of the client.

1. Purpose

The purpose of the MoU is to establish a close collaboration in order to achieve excellence in the areas of pharmaceutical sciences education, training, skill development, research and career progression. The parties desire to work together in the future for their mutual benefit to foster a joint framework in diverse areas of pharmaceutical sciences with a view to benefiting from each other's initiatives and working procedures, and thereby create an ecosystem that assists, supports and helps pharmaceutical sciences fraternity, be it students, faculties, researchers, or academicians.

2. Scope

This MoU sets forth the intentions of the Parties for increased collaboration, and interaction believing that such a close co-operation between the two would be a major benefit to the student community to enhance their skills and knowledge. The MoU does not create any legally binding commitments. If the Parties later agree to undertake specific joint projects with legally binding obligations, they will develop separate written agreements for such projects, setting out each Party's contributions, deliverables, and budgets.

The Parties intend to:

- Contribute towards pharmaceutical sciences knowledge creation and dissemination;
- Conduct pharmaceutical bioinformatics workshops for the students;
- Conduct joint research projects;
